Extremely durable quality bandsaw blade for sawing difficult to machine materials as well as highly heat-resistant special alloys.

Specially heat-resistant tooth tips made of powder-metallurgical HSS offer a tool life advantage over conventional M42 bandsaw blades.

Bi-Metal

Product Features

Special Tooth
positive rake angle

M51

Areas of Application

Solid Material
large

Solid Material
small

Bundle
solid material

Tubes and Profiles
thick-walled

Tubes and Profiles
thin-walled

Bundle
